High mileage vehicles

G-Energy Expert G 10W-40 is high performance engine oil designed to provide power, protection and extended engine life. G-Energy Expert G 10W-40 is formulated with the use of synthetic technology and advanced additive system to provide thermal stability, detergent and dispersant properties improving engine cleanliness and prevent the formation of harmful deposits in the engine. It also delivers excellent cold start performance in low ambient temperatures.

Applications

- Turbo-charged and direct injection engines
- Gasoline and diesel engines without diesel particulate filters (DPF) requiring oil with API SG/CD standards
- Older engine technologies
- Passenger cars, light trucks and vans

	Features	Advantages and Potential Benefits
	Improved detergent and dispersant properties	Helps to maintain piston cleanliness preventing ring sticking and sludge formation
	Stay-in-grade	Stable viscosity index improver controls the viscosity of the oil throughout its service life for minimizing wear
	Thermal and oxidation stability	Helps to resist oil aging allowing extended drain interval protection
	Good low temperature performance	Oil flows more quickly and circulates throughout engine at low temperatures to extend engine life
	Wear Protection	Excellent performance in both low and high temperature service for long engine life

Meets the requirements:

- API SG/CD

Approvals:

- AVTOVAZ
