Multigrade

Gasoline and diesel engines

Normal system operating pressure

Gazpromneft Standard oils are high quality mineral engine lubricants providing reliable protection under a wide variety of operating conditions. They contain an effective balance of detergents and dispersants to minimize the formation of sludge and deposits, retain alkalinity and reduce wear.

Applications

- Gasoline and diesel engines without diesel particulate filters (DPF) requiring oil with API SF/CC standards
- Older engine technologies
- Passenger cars, light trucks, farm equipment

Features	Advantages and Potential Benefits
Multi-purpose application	Suitable for a wide range of vehicles
Wear protection	Proven anti-wear additives protect throughout the range of operating conditions for prolonged engine life
Thermal and oxidation stability	Resists oil thickening during whole drain interval
Detergent and dispersant properties	Control of high temperature deposits formation to prevent sludge and keep engine cleaner

Recommendations

- API SF/CC

Meet the requirements

- AVTOVAZ
